EDUCATION

• University of Bristol

2022-date

Computer Science MEng

Average Percentage: 74

- Relevant modules: Software Engineering Project (77), Machine Learning (77), Object Oriented Programming and Algorithms 1 (76), Algorithms 2 (75), Advanced Algorithms (80)
- Competed in the 2023 BrisHack 24-hour Hackathon in a team of 5
- Competed in the unitaryHACK 2025 open source quantum Hackathon in a team of 2

• Norwich School

2020-2022

A levels

Results: A*A*A*A

- Computer Science (A*), Maths (A*), Further Maths (A*), Physics (A)

• Norwich School

2017-2020

GCSEs

Results: 9 subjects ranging 7-9

PROJECTS

• C#

- Developed an interactive exhibit for Bristol Museum as part of a team of 5, utilising .NET and Avalonia frameworks, alongside implementing unit tests and CI/CD practices
- Directed a team of 6, developing a game utilising the Unity game engine over the course of 12 weeks for a day event where over 200 users played the game

• Python

- Created an ANPR gate system for an industrial park with a web server for the owner to add users. This used OpenCV, Matplotlib and Pytesseract to extract number plates and PHP with MySQL to alter number plates in the database
- Introduced documentation for the open source quantum circuit optimisation repository PYZX
- Trained a transformer model with a recall of 0.75 and AUC of 0.74, and a LightGBM model with a recall 0.82 and AUC 0.9 to predict sepsis probability from medical features in real time

• Swift

- Developed Headway, a task time management app which implemented Realm to manage data and Firebase to manage feedback

• Java

- As a pair, implemented a Scotland Yard Board game with AI bots that co-ordinated moves via the Monte Carlo Tree Search algorithm

• Go

- As a pair, created a GOL simulation which could either utilize cores of the computer or AWS servers to concurrently render each move of the simulation

KEY SKILLS

• Problem-Solving

- Prepared exhibition pre-builds and worked on site building set-ups for ExCel London and SEC Glasgow with one other

• Time Management

- Spent the past 7 years rowing 10 times a week alongside studies leading to better time management
- Authored an app to track the time spent on tasks to better time management

• Leadership and Communication

- Planned and directed a 24-hour walk for Help for Heroes, raising £500
- Was project manager of a group of 6 for a 12-week game project
- During A-levels, volunteered as a coach on weekends to teach kids how to row

INTERESTS

• **C2 World's Longest Tandem Row:** 7 days straight and over 1,100,000m

2020

• **Rowed at Henley Royal Regatta:** Represented both school and university

2021-2023
